COMPANY OVERVIEW

About Us

Pegon Energy Services Limited is a distinguished entity in the oil and gas servicing industry, renowned for its commitment to excellence, innovation, and customer satisfaction.

With a rich portfolio of services, a team of seasoned professionals, and a track record of success, Pegon stands ready to be your trusted partner in achieving operational efficiency, safety, and profitability.

OUR PROCESS

Mission

To be the preferred partner for oil and gas companies, delivering innovative solutions, exceptional service, and enduring value.

Vision

To lead the oil and gas servicing industry through excellence, innovation, and unwavering commitment to customer satisfaction.

Process

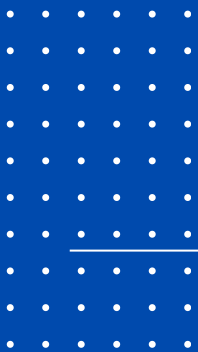

At Pegon Energy Services Limited, our process begins with in-depth client consultations to understand their needs. We meticulously plan and analyze each project, tailoring solutions to meet specific requirements.

Our expert team then designs and engineers customized solutions using the latest technologies. With a focus on procurement and logistics, we ensure timely acquisition of materials and resources.

COMPANY VALUES

At Pegon Energy Services Limited, our core values encompass integrity, excellence, customer focus, safety, innovation, teamwork, and environmental responsibility. We conduct our business with honesty and transparency, striving for excellence in every aspect of our work to exceed client expectations. Our commitment to customer focus ensures personalized solutions and exceptional service delivery, while maintaining a culture of safety is paramount to us, ensuring the well-being of our employees and communities.

WHAT WE DO

Pipeline Services:

Pegon offers comprehensive pipeline services encompassing design, installation, maintenance, and inspection.

Procurement:

Pegon offers efficient procurement services, sourcing high-quality materials, equipment, and components for oil and gas projects. .

We specialize in the sourcing, purchasing, and delivery of high-quality materials, equipment, and components from reputable manufacturers and global suppliers. From valves, pumps, compressors, and instrumentation to pipelines, structural steel, and safety systems, we ensure that every item procured meets international standards and project specifications.

Our team works closely with clients, OEMs, and supply chain partners to deliver value through:

- **Global Sourcing & Vendor Management:** Leveraging a vast network of trusted suppliers across the globe to source the best products at competitive prices.
- **Technical Evaluation & Compliance:** Ensuring all procured items meet the technical requirements and regulatory standards, including API, ASME, ISO, and NACE.
- **Logistics & Delivery Management:** Coordinating shipping, customs clearance, and last-mile delivery to project sites—on time and within budget.

SCADA (Supervisory Control and Data Acquisition):

Pegon specializes in the design, implementation, and maintenance of SCADA systems for oil and gas facilities.

Remote Monitoring Telemetry:

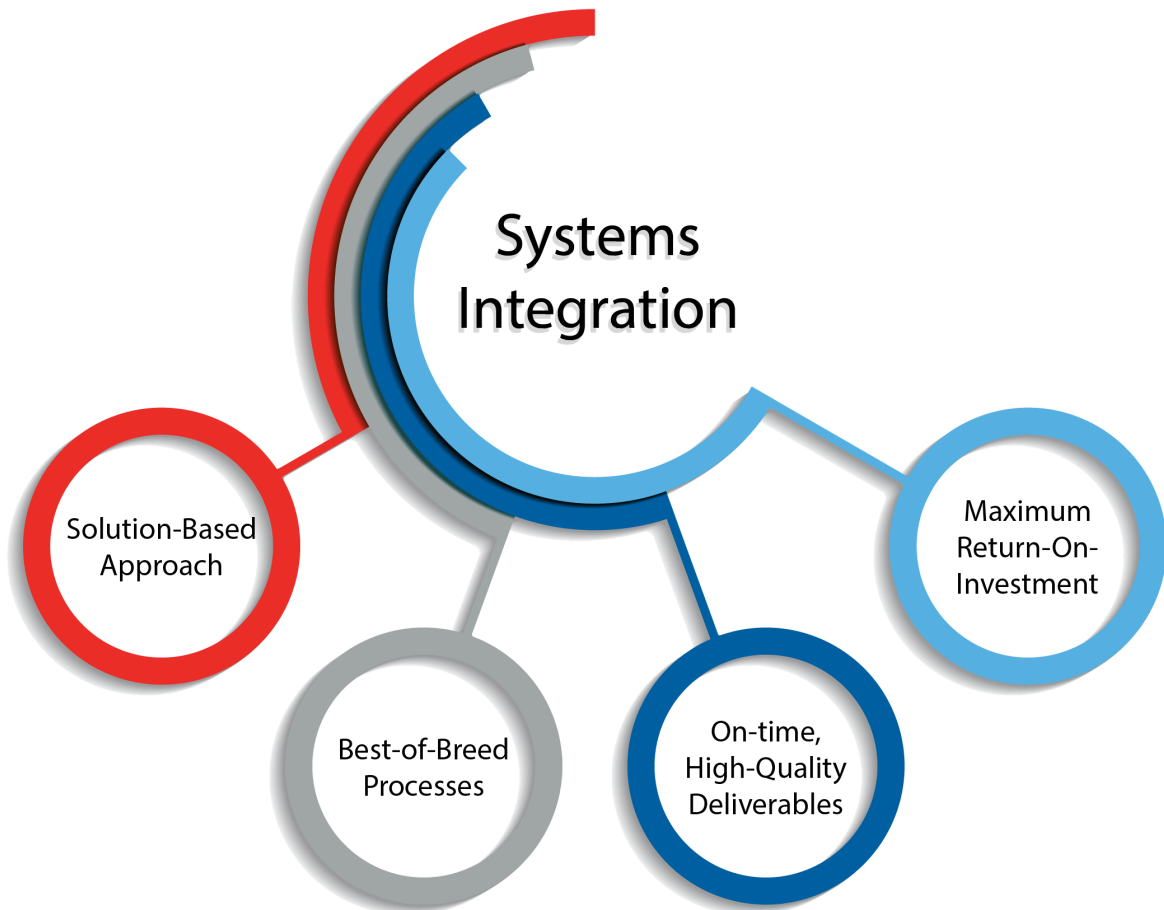

Pegon provides advanced telemetry solutions for remote management of critical assets in the oil and gas industry.

Systems Integration:

Pegon excels in systems integration, seamlessly integrating diverse systems and technologies to streamline operations and maximize efficiency.

Instrumentation and Electrical Services:

Pegon offers comprehensive instrumentation and electrical services, including installation, maintenance, and troubleshooting.

PNG Gas Sales and services

As a trusted provider of natural gas solutions, Pegon facilitates the sale and distribution of natural gas to diverse industries and communities. .

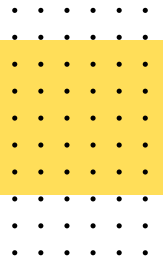

Metering and Calibration:

Pegon provides accurate metering and calibration services for oil and gas measurement systems..
